

# Since You've Been Gone

by JD Cordlé (copyright August 4, 2020)

## **Verse 1:**

The sun has risen  
New day in dawn  
The moon has tripped and she's fallin' down  
Seems like mother nature will always give you the run around

## **Chorus:**

It's like waiting on sunken ships,  
Livin' this life that's sailed but didn't make the trip,  
It's like havin' steady hands and feelin' the razor slip  
I can't find a common bond  
Ain't a damned thing been right since you've been gone

## **Verse 2:**

The grass was always green  
Until the neighbor's dog up and pissed on it  
Seems there ain't nothing can ever let it be  
I don't know why the whole damn world is taunting me.

## **Chorus:**

It's like waiting on sunken ships,  
Livin' this life that's sailed but didn't make the trip,  
It's like havin' steady hands and feelin' the razor slip  
I can't find a common bond  
Ain't a damned thing been right since you've been gone

## **Verse 3:**

There's a train comin'  
And I'm already half way down the tunnel  
It was always squeaky clean,  
Until life went and popped a hole in the funnel

**\*\* Repeat Chorus**
