

**Alive with Light**  
**Sherrri Tennant**

**Intro/Chorus**

Alive with light today  
Alive with light today  
Alive with light today  
Alive with light today

**Verse 1**

Hurtful words we said  
Pull me down again  
Bring me to my knees  
Begging to break free from misery  
Running for my life  
Holding my gold knife  
Cut the cords to games we played  
Bury the dead  
We're alive with light today

**Chorus**

Alive with light today  
Alive with light today  
Alive with light today  
Alive with light today

**Verse 2**

Answers came from friends  
Hope to try again  
Recover from the lies and games  
Rise from ashes  
Carry torch and flame  
Make it known to them  
Our love will never end  
We lift each other up with words  
Writing songs of love to be heard

**Chorus**

Alive with light today  
Alive with light today  
Alive with light today  
Alive with light today

**Bridge**

Let's trade places with each other

In our minds

Safety

Let's trade places with each other

In our minds

Empathy

Let's trade places with each other

In our minds

Love deeply

Let's trade places with each other

In our minds

Love deeply

**Outro**

We see

Breathe

Free

See clearly

Breathe

Free
