

Between Us
Sherrri Tennant

Verse 1

Warning came driving down
Didn't notice foreboding clouds.
Old shadows back again.
Jealous crept in with torment.
Arms crossed over your heart
Wouldn't let me in
Knight standing guard
Shield up, years of trust robbed
Protect your dreams at all cost.

Chorus

Feel me across the miles
What lie between us are land, lakes and sky.
Feel me across the miles
Love travels far, mind to mind, across the miles.

Verse 2

Doors unlocked opened wide
Didn't notice burglar of mind
Sword drawn aimed at his heart
Words cut tearing us apart
Launched up turned around
Begged for life
Back to safe ground
Pulled together just in time
Went to a place so fine...

Chorus

Living
Loving
Hearts open wide
Nothing between us
No pain to numb
No fear to hide
Living
Loving
Hearts open wide
Love travels far mind to mind
Hearts open wide
